**What is Big Data?**

Big data is being generated by everything around us at all times. Every digital process and social media exchange produces it. Systems, sensors and mobile devices transmit it. Big data is arriving from multiple sources at an alarming velocity, volume and variety. To extract meaningful value from big data, you need optimal processing power, analytics capabilities and skills.

Then you are invited to attend Seminar dedicated to topics:

**Big Data Platform and Product Aspects**

&

**Big Data Governance and Data Reservoir Architecture**

The right platform instills trust, so you can act with confidence. It controls how information is created, shared, cleansed, consolidated, protected, maintained, retired and integrated within enterprise.

**When:**

**April 24th 2015 from 09:10 am to 10.40 am**

**Where:**

Faculty of Electrical Engineering and Informatics, Technical University of Kosice, building L9-A_529

**Speakers:**

Ing. Slavomír Pšenák – Business Analytics & Strategy Practice Leader

Ing. Július Oboril – Business Analytics & Strategy Consultant

Let’s build a smarter planet. [ibm.com/start](http://ibm.com/start)
