What to do:

We are looking for students to support our agile teams in the area of software development. Typical tasks - depending on the field - would be the development of new and the improvement and maintaining of existing applications.

Get in touch with a wide range of technologies, from cutting edge to mainstream. You will have the opportunity to learn from our experienced team members and can also bring in your own new ideas that will help us to grow and improve.

You check these boxes:

- Enrolled student with on-going program at University (Uni, FH)
- First experience with Python or Java or PL/SQL or any other programming language
- Passion for teamwork and continuous learning
- At least conversational English; any other CEE language is an advantage
- Curious and empathetic, treating all people with respect

Our Offer:

- Possibility to benefit and learn from our international, talented and passionate community at Erste
- Great learning curve through ownership and creative freedom
- Interest groups and clubs: Take part in discussions and get involved in projects. Numerous interest groups invite you to engage with a topic
- Learning & Development – We are firmly convinced that every day is an opportunity for learning. Improve your know-how in workshops, seminars and through e-learning – from professional training to soft skills.
- New way of work: With our flexible working hours model we want to make your life less complicated. Combining the best of both worlds, remote and company time.
- We offer you a varied part-time internship position. An internship salary starting up from 7€/h, depending on your skill and previous work experience is offered.

The way we are

Erste Group considers the diversity of its employees as key to innovation and success. As employer we are proud to offer everyone equal chances, irrespective of age, skin colour, religious belief, gender, sexual orientation or origin.
